Gabriel Morales

7319 Bowman Ave, Regina, SK | 306-450-9023 | morales6501@saskpolytech.ca

Highly motivated and technically skilled individual with a passion for front-end development. Currently pursuing my Computer System Technology diploma at Saskatchewan Polytechnic. Demonstrated ability to quickly learn and apply new technologies. Strong problem-solving skills and a creative approach to design challenges. Excellent team player with effective communication and collaboration skills.

Skills & abilities

- Proficient in creating dynamic pages using HTML, CSS and JavaScript.
- Familiar with mobile development languages (Kotlin and Swift).
- Proficient in version control systems like Git and GitHub.
- Eager to stay updated with the latest trends and technologies in front-end development.
- Knowledgeable in multiple Operating Systems (Windows, Linux).
- Familiar with Agile/Scrum workflow.

Education

Saskatchewan Polytechnic, Computer System Technology Diploma   **2022-2024**

Gained hands-on experience in multiple programming languages and frameworks (HTML, CSS, JavaScript, JQuery, Bootstrap, Java, C#, Bash, C, etc.) and developed multiple applications, websites and games. Learned about an extensive variety of computer hardware components and their role within a computer. Gained experience of handling back-end systems while also developing and sustaining a wide range of databases using SQL and Microsoft Access. Learned the most commonly used programming languages for mobile development (i.e. Kotlin, Swift) to create multiple applications and games.

Dr. Martin Leboldus Highschool, Highschool Diploma   **2016-2020**

Academic Achievements:

- Grade 9 Honour Roll
- Grade 10 Honour Roll
- Grade 11 Honour Roll
- Math Workplace and Apprenticeship 20 Academic Award (Highest grade).

Relevant Experience

Capstone Project   **2023-2024**

Currently working on the development of a website for a client. In this project, I'm responsible for:

- Managing the front-end of the system:
  - Implementing interactive features and optimized site performance for a seamless user experience.
- Ensuring an appealing UI and UX for the website across multiple devices:
  - Designing and implementing responsive layouts for desktop, mobile, and tablet views.
- Handling the back-end of the system:
  - Creating and maintaining databases for website interaction.
  - Ensuring data integrity and optimized database stability.

Hobbies

- Practicing musical instruments (Piano, electric guitar).
- Drawing.
- Learning new languages.
